# Financial WELLNESS

## Achieve financial wellness with the YH International Compensation Plan

There are many opportunities available today for the entrepreneur or the entrepreneur-to-be, more so than at any other time in history. The advent of the information age, advanced distribution systems, and the explosion of the Internet have all created a society in which even small businesses can stand side by side with large, developed firms in offering choices to consumers.

The fact is that we still seek not just opportunity, but opportunities that nourish our minds, bodies and souls. We seek opportunities to connect with other people in an increasingly disconnected marketplace.

That is why the time has never been more right for the explosion of direct selling and network marketing opportunities. Since their humblest beginnings in the 1960s and '70s, these have grown into a \$68 billion dollar industry employing more than 14 million people in more than 125 countries worldwide.

If you are serious about taking control of your life, now is the time to take a serious look at YH International. Whether you are interested in earning a great income, supplementing your income or
